DMW Practical 6

Apriori testing using Weka tool :

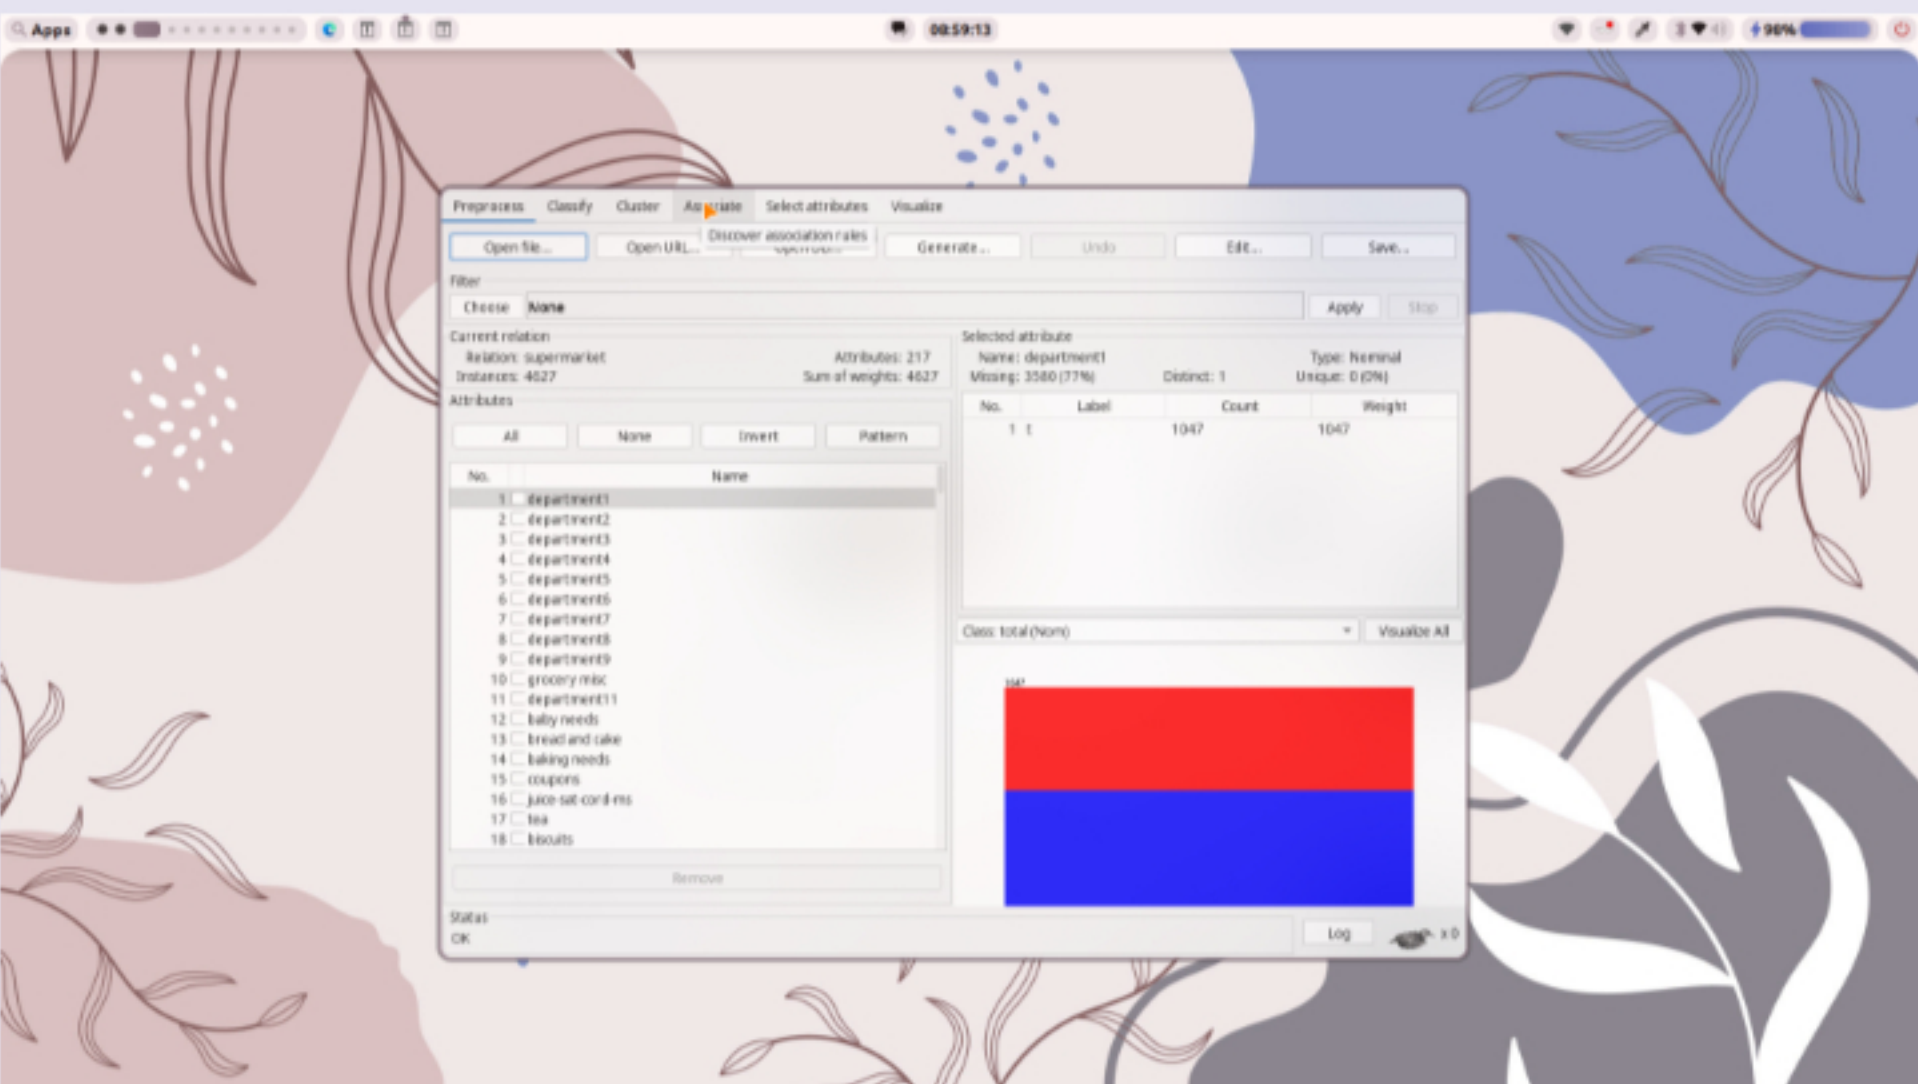

- 1. Open Explorer in Weka tool

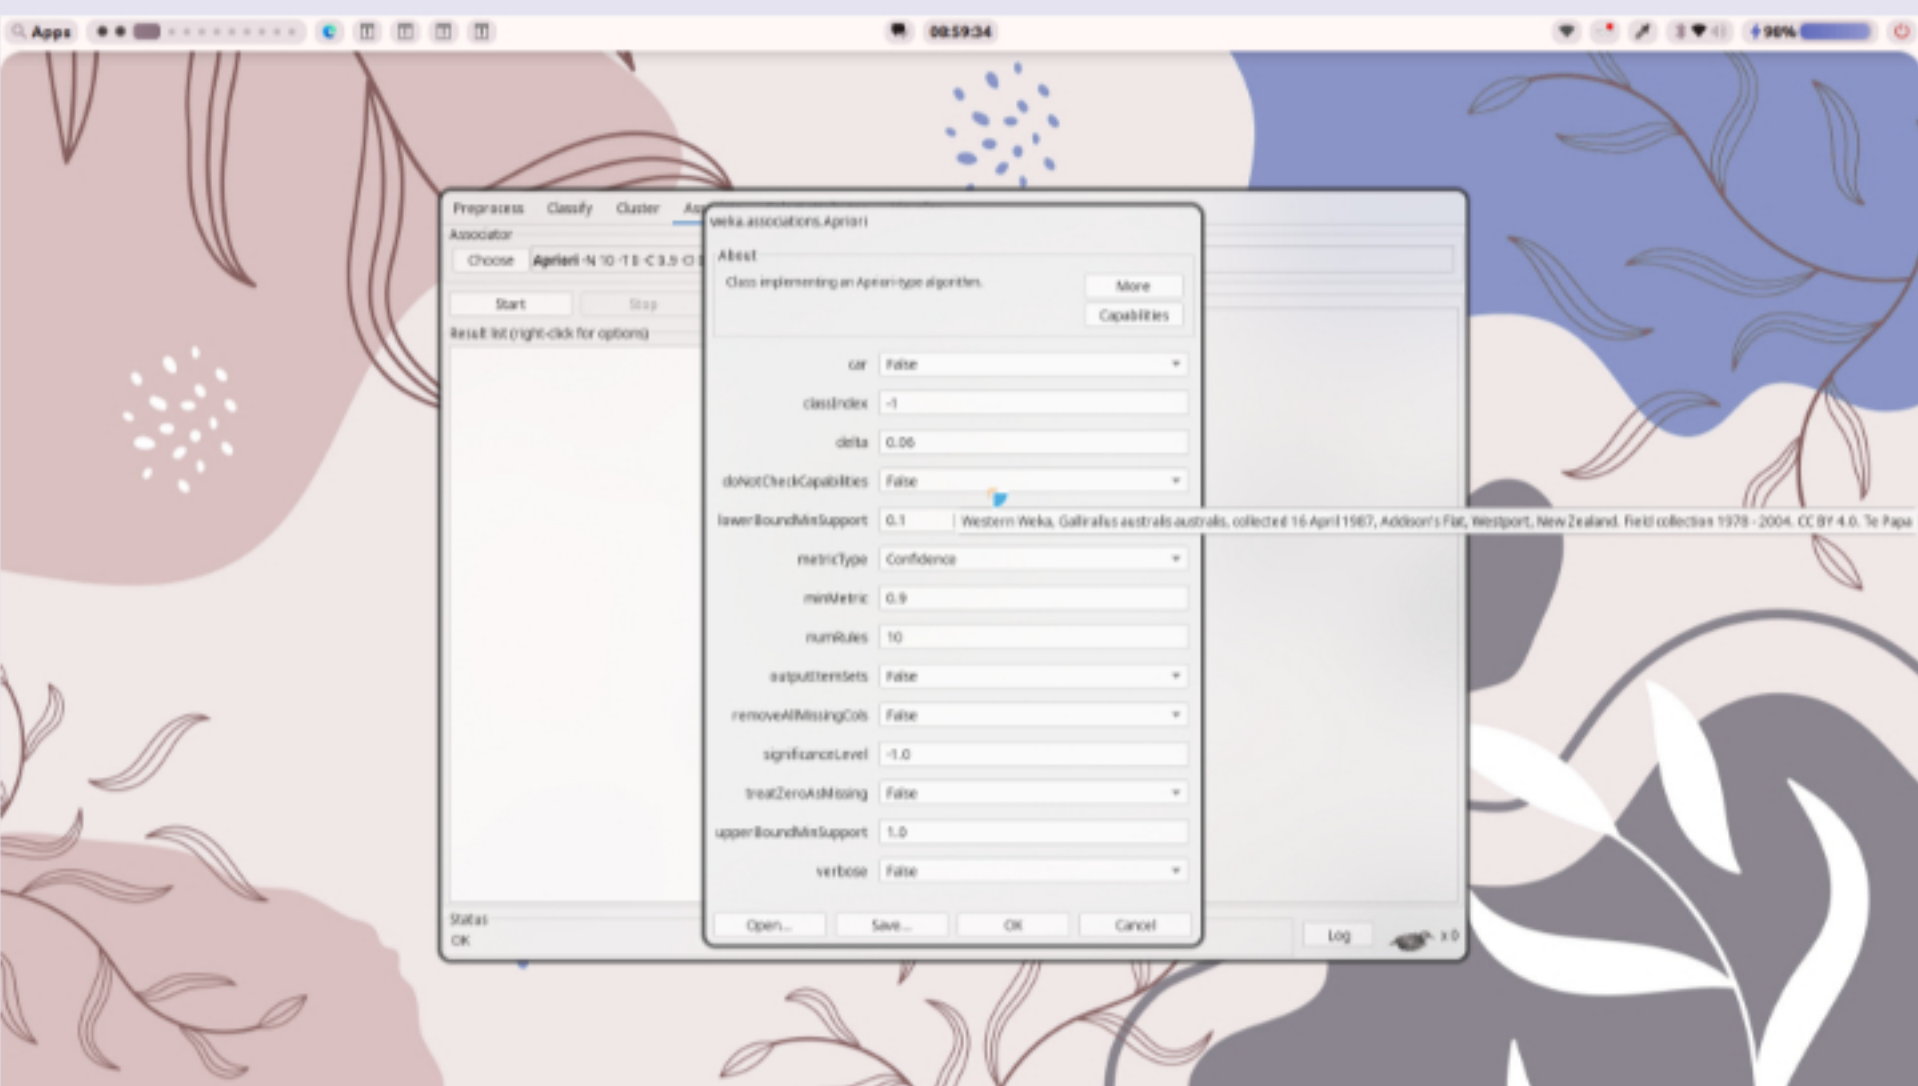

- 2. Open any file say supermarket.arff here from given data in Weka folder, here for linux system, the path is /usr/share/weka/data/

- 3. Now, visit Associate tab in explorer

- 4. Click Apriori option and change some options if needed

- 5. Final output is obtained by using Apriori algorithm containing min support, no. of cycles. sets of large items, best rules obtained
